TABLE AND POCKET CUTLERY,

House and Ship Builders' Hardware, Mechanics' Tools, House Furnishing Goods, Farming Implements, Glass, Wagon Material; Vessel, Steamboat, and Railroad Supplies; Roofing, and I. C. Tin Plate, Zinc, Alder, Babbit Metal, Lead, Shot, Bar Iron and Steel, Leather and Gum, Hitting, Hemp and Gum Packing, Cut and Wrought Spikes and Nails, Hollow Ware, Grind Stones, together with a general stock of Shelf Hardware, rendering the stock one of the most varied and extensive in this section. Importing direct from England and Germany, and purchasing of the manufacturers in this country, enable them to offer goods on the very lowest terms. Country merchants, manufacturers, and consumers are requested to examine the stock before purchasing elsewhere, as, they feel assured, they can make it the interest of all to purchase of them. An experience of twenty-seven years in the Hardware Trade in this city, and the liberal patronage which has been extended to them during that time, justify them in asking and expecting its continuance. Recollect the place!

The Old and Established

B A L T I M O R E

STEAM PACKET COMPANY,

Carrying the United States Mail, and Adams' Express Freight,

So well and favorably known to the travelling public as the

OLD BAY LINE,

Are now running their Magnificent, Safe, and Commodious Steamers

THOS. KELSO - - **Capt. Geo. W. Russell.**

ADELAIDE - - **Capt. James Cannon.**

The **Thos. Kelso** was built for, and is expressly adapted to, the Bay Route, and excels, in the splendor of her outfits, any Steamer now plying these waters. She is provided with hot and cold baths, and every modern convenience.

The **Adelaide**, has been recently rebuilt and refurnished throughout. Her accommodations are of a superior order. She is so well known that further comment is unnecessary.

These Steamers leave the Company's Wharf, on Wide Water Street, opposite the Atlantic Iron Works, Norfolk, daily (Sundays excepted), at 3½ o'clock P. M., and High Street Wharf, Portsmouth, at 4 o'clock P. M., touching at Old Point.

Passengers by this line arrive in Baltimore in time to connect with the early trains to Washington, and all points North and West. Baggage checked to all points, and passengers and baggage conveyed to the Depots free of charge.

The Wharf of the Company has been put in excellent order, and is fitted expressly for the protection of Freight, and the accommodation of Shippers.

Freight taken at low rates, and promptly delivered.

For further information, inquire of D. C. Ball, Agent at Portsmouth, or to the Purasers of the Steamers.

M. N. FALLS, President.

THOS. H. WEBB, Agent.

IMPORTANT TO SHIPPERS!

VIA

ALBEMARLE & CHESAPEAKE CANAL.

 In order to facilitate and expedite the Transportation of Freight to NORTH CAROLINA, through the Albemarle and Chesapeake Canal, a general:

FREIGHT DEPOT

has been established on WIDE WATER STREET (formerly the Seaboard and Roanoke Railroad Depot), where FREIGHT will be received DAILY, to be forwarded to all points in North Carolina accessible by rail or water, where steam lines have been established.

 Freight arriving by the New York, Boston, Philadelphia, Baltimore, and Richmond Steamers, will be received, charges paid, and promptly forwarded.

Steamboats are now running to the following places in North Carolina:

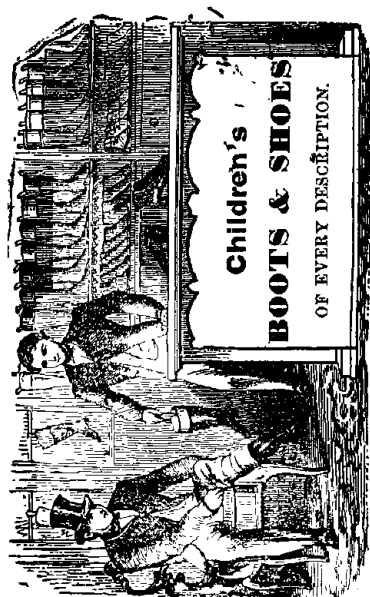

NEWBERN,
WASHINGTON,
ROANOKE ISLAND,
EDENTON,
ELIZABETH CITY,
PLYMOUTH,
WINTON,
MURFREESBORO',
GATESVILLE,

JAMESVILLE,
WILLIAMSTOWN,
HAMILTON,
SCOTLAND NECK,
HALIFAX,
WINDSOR,
HYDE COUNTY,
CURRITUCK COUNTY,
&c., &c., &c.

For further information apply at the Freight Office, at the Depot.

## UNIVERSAL COTTON GIN & CONDENSER.

**HORACE L. EMERY,**

Patentee, and Sole Proprietor and Manager of the

**ALBANY AGRICULTURAL WORKS,**

*Hamilton Street, corner of Liberty and Union Streets,*

ALBANY, N. Y., U. S. A.

With the close of our Civil War and the resumption of industrial pursuits, will follow a wave of emigration into the Southern States of a Free, Intelligent, Agricultural and Laboring Population, carrying with it the requisite Capital and Labor-Saving Machinery, and Implements of the most approved and latest designs and construction, which will permeate all portions of those States, and especially those whose soil and climate are adapted by nature for the production of that wonderful staple, Cotton.

Among these machines none are of so great importance as those used in the production and preparation of this staple for the markets of the world, the Universal American Cotton Gin and Condenser ranks first, and the Endless Railway Horse Power with its Speed and Safety Governor Attachment, the second, in importance among them all. The Gin and Condenser was quite extensively introduced prior to the War, and with uniform good success, in some of the best portions of the Cotton States. It was universally approved at the World's Fair at London and by the Manchester Cotton Supply Association at Manchester, England, and adopted by them, and also adopted by the East India Cotton Agency Company, one of the oldest and largest Houses in the Cotton business in India; also by several of the Governments—as Turkey, Brazil, Egypt, Italy, Greece and India—in their respective efforts for the introduction of the culture of this staple.

Its merits are also even more fully endorsed by those using them in our own country during the past year; and numerous letters and testimonials are received and coming to hand from parties having used them, and as an average sample of their character a copy of one is hereto annexed: where the cotton

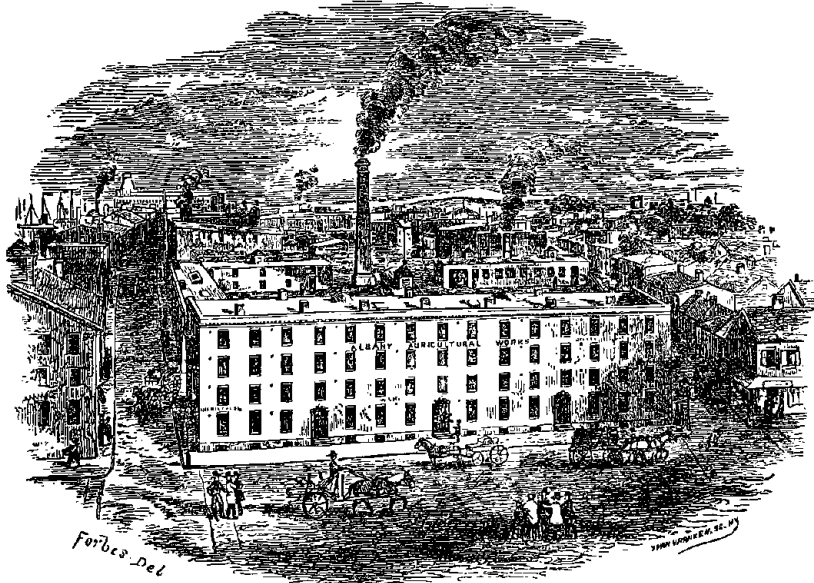

from the same plantations run through this Gin and Condenser uniformly commanded FIVE CENTS per pound over that by the best of other Gins in use, the "St. Charles Gin."

These Gins are made for Hand Use, of several sizes, capable of making one to two bales per day of clean cotton; also for Horse and Steam Power, with capacity from two to ten bales per day. They can be used with or without buildings, are proof against fire, and entirely portable and complete for use, and are all tested practically before being delivered from the Works.

The Endless Railway Horse Power, with its Speed and Safety Governor Attachment, when propelled by two horses, will drive a Thirty-five to Fifty Saw Gin and Condenser to clean from two to four bales per day, according to size of Horses, Mules or Oxen and the kind and condition of the seed cotton—the animals at the same time traveling as upon the roadway without requiring any kind of harness or gear, the speed being fixed by the governor to accommodate their natural gait and the work being done. This Horse Power is also fitted with a series of gears and pulleys which will, by changes and transpositions, produce any desired speed of the driving band pulley without affecting the travel or labor of the animals, thus making this power adapted to all kinds of work on farm or plantation.

These Gins, Condensers and Powers are offered to the public, and warranted to give entire satisfaction, or no sale. Orders solicited. Address Horace L. Emery, sole proprietor of the Albany Agricultural Works, Albany, N. Y., U. S. A.

**HORACE L. EMERY,**  
 Patentee and Sole Proprietor and Manager.

The above CELEBRATED WORKS were originally organized and erected during the years 1847, '48 and '49 in this CITY OF ALBANY, by the present proprietor, who has since then, and almost without interruption, been directly or indirectly connected with them as proprietor and manager alone or with others, and more recently with his junior brothers, under the firm and title of EMERY BROTHERS, down to the year 1862, when he left the country to attend the WORLD'S EXHIBITION at London, with some of his leading articles of his invention and manufacture, where he remained with them nearly two years.

During the long period from 1850, the machines Manufactured at these Works, have acquired a world wide reputation for Excellence of Construction, Utility, Durability and Cheapness, which is second to that of no similar Establishment in the World. The articles here made, have found a ready demand and large sale, in every part of this and other countries where they have been introduced, and such labor saving machines are used.

While abroad, he exhibited several of his leading Machines at the Great World's Fair with entire satisfaction and which resulted in establishing the manufacture of them there on a large scale, and which is constantly increasing.

During the time (nearly two years,) he devoted his entire attention to the interests of agriculture and Agricultural Machines, and the wants as well as the

supplies of all countries there represented, and especially to those of Great Britain, France and Russia—losing no opportunity to acquire a knowledge of and adopt so much of them as were useful or desirable for our own country. On his return here, in the early part of 1864, he purchased out the entire interests, in and to these ALBANY AGRICULTURAL WORKS, together with the entire assortment, and large stock of Patterns, Machinery Material and business, and continues the same, at the old stand. He has since greatly increased his facilities, and improved upon the old, and added many new patterns and styles of machines, which from his experience and observation have appeared deservable. All of which he now offers to the public at large, assuring them that no efforts or expense will be spared in furnishing them with the best of everything of the kind in his line extant. And he earnestly solicits a continuance of the long and liberal patronage heretofore enjoyed by this house, from a discerning public.

Address Horace L. Emery, Albany, N. Y., U. S. A. Sole Proprietor and Manager of the Albany Agricultural Works, Warehouse and Seed Store, Hamilton, corner Union and Liberty Streets.

AUBURN, May 17th, 1865.

MR. HORACE L. EMERY:

SIR:—My father, Abijah Fitch, handed me this day your letter, inquiring after the Fifty Saw Cotton Gin and Condenser, we purchased from you last season.

I used the Gin and Condenser on the Plantation in Louisiana, leased by us, and can assure you it was far ahead of the Gins in use there now, as can be. I tried it side by side, with the "St. Charles Gin," and yours produced from the same Seed Cotton, a much better Hat and a better staple. So much so, that a difference of five cents per pound was made in favor of all which was run through your machines. Several Old Planters took especial pains to

examine them, and were perfectly satisfied of their great improvements over their old styles. The idea of Ginning Cotton *out of doors*, completely astounded them. I am satisfied that if yours were introduced, they would almost entirely displace all other kinds.

With your Two-Horse Endless Railway Power, with Gin and Condenser, a very large sale could be made in the Burnt District, through Alabama, Georgia, and the Carolinas, where their Gin Houses are "*non est*." If desirable, I can procure for you testimonials to the same effect, from planters and parties living in Louisiana, who have operated them, aside from any interest I may have had in them.

I am, Sir, Yours Respectfully,

**PHELAN & COLLENDER,**  
SOLE MANUFACTURERS.

# THE STANDARD AMERICAN BILLIARD TABLES AND COMBINATION CUSHIONS.

Four Pocket Table, No. 1.

MESSRS. PHELAN & COLLENDER would respectfully call the attention of persons wanting Billiard Tables to the great superiority of the above tables, manufactured exclusively at their establishment.

At the Billiard Congress of 1863, composed of all the first-class players of America, it was unanimously resolved that tables of our manufacture should be used at all matches for the Championship, as the best and only reliable tables.

Seven distinct patents for improvements in Billiard Tables have been granted to us by the United States Patent Office, and we have lately obtained a patent from the French Government for our improvements in Billiard Cushions.

We employ, in the construction of our Tables, a variety of machines specially made for the purpose, by means of which we are enabled to insure a scientific and mechanical accuracy hitherto unknown in Billiard manufacture.

Having a long experience and thorough knowledge of all the appliances of Billiards, and constantly on hand a large stock of the best and most thoroughly seasoned materials, we are prepared to furnish everything required in the Billiard Line with unprecedented dispatch.

The eminent French Billiard Player, M. Berger, has published the following opinion:

"New York, 2d August, 1861.  
"On the eve of leaving the United States, I am happy to declare to all amateurs of billiards that, after a tour of eleven months through the principal cities, I have been enabled to judge in a satisfactory manner of the superiority of the Billiard Tables manufactured by Phelan & Collender. The system of manufacture is so superior, that I am happy to introduce their style of cushion into France. They have united to their manufacture of American Billiard Tables that of the French Tables, of remarkable excellence and beauty. For these reasons I am happy to make this declaration."  
"BERGER, CLAUDIUS, Prof. of Billiards, Paris."

Parties ordering from us will find our prices as low as good work can possibly be made for. We sell first-class articles at a fair price, and will not make an inferior article at any price.

Orders by mail carefully and promptly executed. Illustrated Catalogues and Price Lists sent by mail. "THE BILLIARD CUE," a journal published in the interest of Billiards, and containing details of all novelties, a copious record of Billiard news, and everything of interest to amateurs of Billiards, sent free on application.
